***** To ensure your winterization is completed on time, we must receive a written authorization at least seven days prior to first recorded freeze. We highly recommend to be done by November 1st to be safe!**

Thank you for choosing the Marine Service Center, and feel free to contact us anytime for all of your vessel repair, storage, and haul & launch needs!

2017 Marina Winterization Options

Please review all options carefully

Engine Winterization - \$229.50 + tax per Engine

As part of this option, hoses are drained and refilled with antifreeze. Fuel Stabilizer is added to the fuel and a fogging chemical is added to the engine. The batteries are then disconnected unless required for hatch operation. The engine oil will be checked and adjusted accordingly.

House Systems Winterization - \$198 + tax

We drain fresh and lake water systems, as well as air conditioning systems. Compressed air is blown through the systems. Selection can be used in conjunction with other options or on it's own!

Generator Winterization - \$135 + tax

The hoses are drained and refilled with antifreeze. Engine is fogged and battery is disconnected. The engine oil will be checked and adjusted accordingly.

Drive Service - \$297 + tax per Drive

Requires the vessel be hauled to the Marine Service Center - Haul/Launch fees vary by boat. Includes pulling the drive(s), changing gear lube, grease u-joints & gimball bearings, clean & refill monitor bottle, verify engine alignment. Inspect bellows and anodes. Top fluid levels & grease fittings. Make any needed recommendations.

Annual Maintenance Recommendations

Discounts Available - Call 435-684-3008 for more Information

The winter season is a great time to take care of those repairs that may have been overlooked during the season to gain more time on the lake. The certified technicians at the Marine Service Center are capable of performing everything from tune-ups to re-powers, welding repairs, & complete bottom jobs. The following is a short list of the most commonly requested work. In the space provided, please indicate any additional work you need performed. you would like performed.

Change Oil/Filters

Water Pump Replace/Repair

Service Generator

Engine Tune Up

Bottom Paint

Welding Fabrication/Repair

Power Wash Hull

Electrical Systems Repair

Additional Work Requests or Comments:

Winterization is void once vessel is operated, removed from moorage, or water tanks are filled.
