MARINA SERVICES

Wahweap Marina Services offers the finest in boat management, boat repair, pilot services, boat servicing, uplake anchoring, uplake tours, uplake taxis, guided fishing tours and other services. Our team will give both you and your boat the very best of care. By using *Wahweap Marina Services* you can concentrate on simply enjoying beautiful Lake Powell.

BOAT MANAGEMENT (Multi-Owner Boats)

Wahweap Marina Services offer an experienced crew to manage your boat's weekly turnarounds which includes: weekly owner orientation, boat servicing, pilot services, boat repair, cleaning and propane. Any other services that are offered may also be requested by any party.

BOAT SERVICING AND CLEANING

Wahweap Marina Services offers walk-up customers all services based upon availability. We can provide cleaning, fueling, waste pump out, fresh water fill, propane tank exchange and trash removal, along with the mechanical repair and piloting services listed below.

PUMP OUT BOAT

Our mobile pump out boat is capable of pumping your boat at the slip or the buoy. This is a very convenient service for saving fuel and time. Our office can schedule your boat accordingly.

BOAT REPAIR

For maximum efficiency our boat repair facility is located on the water. Our mechanics are schooled and factory trained by Mercury, OMC, Volvo, Mathers and Westerbeke. We can perform services from the simplest adjustment to out of water repairs such as engine and generator replacement.

PILOT SERVICES

Our Coast Guard licensed captains are available to pilot your boat, perform boat towing, boat salvage, lake runs, uplake water taxi service and piloting lessons.

UPLAKE ANCHORING

Let us take the hassle out of boating. Our coast guard licensed captain can pilot your boat to an uplake site. The captain and crew will anchor the boat for you. Prior to your departure, pilot and crew will un-anchor your boat and safely return your boat to the marina.

UPLAKE TOURS

Your desire to experience the lake with your party can only be fulfilled with our private tours. Our Coast Guard licensed captains can pilot you to the secret wonders of Lake Powell.

GUIDED FISHING TOURS

An all inclusive guided fishing trip can be scheduled through our office; all you will need to bring is your fishing license. We offer full day guided fishing trips and half day trips.

BARGE SERVICE

Our barge is available to conveniently transport all of your gear and food from the launch ramp to your boat whether in the buoy field or at the marina.

BUOY CABLE INSTALL

Buoy cables become worn and unreliable, putting your boat in danger of breaking loose. We have personnel available to replace your old cable with a new one.

PEDESTAL UPGRADES

Single connection pedestals can easily be exchanged for dual connection pedestals by our experienced electricians, see Wahweap Marina Service's office for scheduling.

DOCK UPGRADES

Upgrades to your slip can be completed by our experienced staff. Bring your ideas on paper to Wahweap Marina Service's office for approval by a manager and we can assist with scheduling.
